

Dear John,

It was good talking to you and Judith yesterday. We got on to the past and missed the present!

We should have greeted you, just in time, for your Birthday yesterday when you called. Our belated but hearty wishes for healthy and enjoyable days with activities of your choices in year and years ahead.

The idea of going somewhere like Alaska is good. We can react the joyful days of our Cancun trip together. At the time you did all the work but, this time let us do it together when we meet next.

Again with greetings,
