

Dear Steve,

First of all, hope your Birth Day went just the way you wanted and was enjoyable. It must have been.

We are little late but our hearty wishes are with you for your new year to be full of enjoyable study (no pun intended!), even greater successes all around and equally important year full of joy. Knowing you, you would, we are confident. You have multi disciplinary abilities and good at those as well.

Say hello to brother, Mom and Dad.

Incidentally, the New Year also just started and we wish you all, all the best.

Greetings,
