

Dear Brad,

Vow!! 25 years! Time flies.....or so it seems looking back, isn't it?

Congratulations! A step by step congratulation for the successes achieved year after year and, we wish all your professional dreams come true going forward. They would, based on the history you have made so far!

There is one another important reason to congratulate you. In your family, Grand Dad and Grand Uncle, I believe, were the first to practice medicine in the town. That followed by two uncles. Today your sister Cynthia and you continue carrying that torch. However, at present, you are the only one responsibly holding high the torch in the town. And, to continue the trend further, you and Tracey have prepared your son Tom. That is incredible.

I can say on behalf of each and every one in the family that we feel good seeing the legacy continuing. Congratulations!

Greetings,
