

Dear Dan, Dorothy and family members:

We are saddened hearing the passing away of your mother. It is one of those difficult times of the life journey to even think of, let alone accepting it. We share your grief.

Mother is special. Her love, kindness, concessions and faith are pure. Her persuasive arguments and even anger while raising children are sanctified with purest intentions of a selfless mother.

Also, mother is special in that she leaves but never goes away; in fact gets closer. The moment we think of her, she would appear. The moment we ask her a question, she would answer. The moment we need solace, she would roll her soft fingers on our head. The moment we ask for her blessings, she would shower on us.

Our prayers are with you for mother's eternal peace and for you all to receive needed strength to bear the loss. We are with you.

We will call you in few days.

Sincerely,  
Jonathan & Judy
